spotter

Members don’t quit loudly.

They just stop coming.

The retention CRM for gyms, studios and academies in India.

FOUNDING 100 · ₹999 A MONTH

THE PROBLEM

Most members don’t cancel. They drift.

WEEK 1

Misses a few visits

Work got busy. Nobody notices. The register just shows a gap.

WEEK 3

Stops coming

No call, no message. Out of habit, out of mind.

MONTH 2

Plan runs out

They never renew, and never tell you they’ve left.

By the time it shows up in your fees, the member is already gone.

WHAT IT COSTS

One normal gym, one year.

₹9,36,000

in fees walked out of the door. Win back 1 in 5 and **₹1,87,200** comes back.

Example: 250 members, ₹1,200 average monthly fee, 4% don’t renew each month. Same math as the calculator on our website.

HOW SPOTTER WORKS

Three jobs, done every single day.

1

Spots who’s slipping

Learns each member’s normal and flags anyone dropping off, with the reason.

2

Brings them back

A friendly WhatsApp check-in from your gym’s own number.

3

Collects renewals

UPI AutoPay on renewal day. Failed payments retry on their own.

1 · SPOTS WHO'S SLIPPING

Every morning: who's slipping, and why.

Ironline Fitness, Kothrud — Slipping this week: 7

Imran Shaikh	13 days ago	2 Nov	**Replied: knee injury**
Gurpreet Bedi	2 days ago	18 Oct	**AutoPay failed**
Kavya Reddy	6 days ago	30 Oct	**Call suggested**

₹8,400 in renewals at risk this month

Each member is compared with **their own** normal, not a fixed rule.

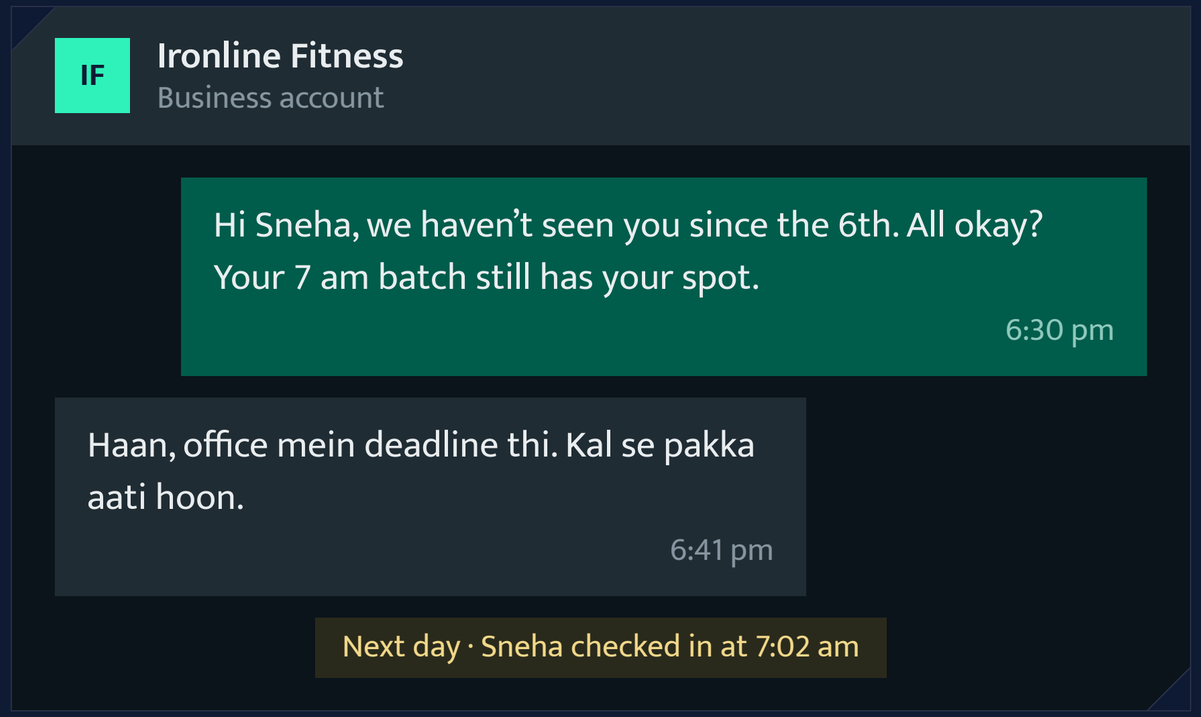

Next to every name is the next step: a nudge, a call, or a payment to fix.

2 · BRINGS THEM BACK

A WhatsApp from your gym, in time.

It goes from **your own number**, in wording you approved once.

Replies come back to you. Anything sensitive, like a complaint or a refund, waits for your OK.

3 · COLLECTS RENEWALS

Renewals that collect themselves.
